## WHAT GEAR DO WE NEED?

The No.1 way to help your kids have fun is to keep them **WARM!**

Like all activities- junior surf and the nippers program involves gearing your kids up for success! If your kids are cold in the water they can't focus on learning new skills, have trouble taking part and are less likely to want to keep coming! Please ensure you are dressing your kids warmly in the first few months of the season including full length snug fitting wetsuits, warm towels & gear for high-vis vests and dickie caps on top for safety so they can be seen in the water!
